and Water Management

Wozep Tussenstand- bijeenkomst

14 februari 2023

Wozep team:

Kees Borst, Aylin Erkman

Martine Graafland, Niels Kinneging,

Dagmar van Nieuwpoort, Maarten Platteeuw,

Elske Rotshuizen, Marije Siemensma

Ingeborg van Splunder, Meik Verdonk

Jos de Visser, Edwin Verduin

Marije Wassink

Tika Fauzi, Dunya Hamkar, Ingrid de Jager,

Annelies Rietman

Welcome to this meeting

- › First live meeting after 3 years
- › Goal meeting
Applying research results

February 15, 2023

Welcome at the
Tussenstandbijeenkomst Wozep
14 feb 2023!

Programme

- › Welcome and general introduction Wozep – Ingeborg van Splunder, RWS
- › Ecosystem effects – Luca van Duren, Deltares
- › OWF impact on birds – Jos de Visser, RWS
- › Flight behavior in OWF – Abel Gyimesi, Waardenburg Ecology
- › Coffee/tea
- › OWF impact on marine mammals – Niels Kinneging, RWS
- › Noise effects on Harbor porpoise – Christ de Jong, TNO
- › Datamanagement Wozep – Rina Clemens, Witteveen en Bos
- › Wozep MJP 2024-2030 – Dagmar van Nieuwpoort, RWS
- › Borrel

Wozep research programme '16-'23-'30

- › Wozep is assignment EZK – offshore wind energy
- › Wozep result of EIA and AA to increase knowledge base ecological impact OWF (nature legislation); focus on protected species
- › Wozep focusses on knowledge questions cumulative effect assessment (KEC)
- › Present road map and future upscaling effects
- › Wozep knowledge used for mitigating measures/regulations

- › Precautionary principle: improve assumptions concerning impact

Ecological knowledge crucial in OWF process

Wozep results are used in:

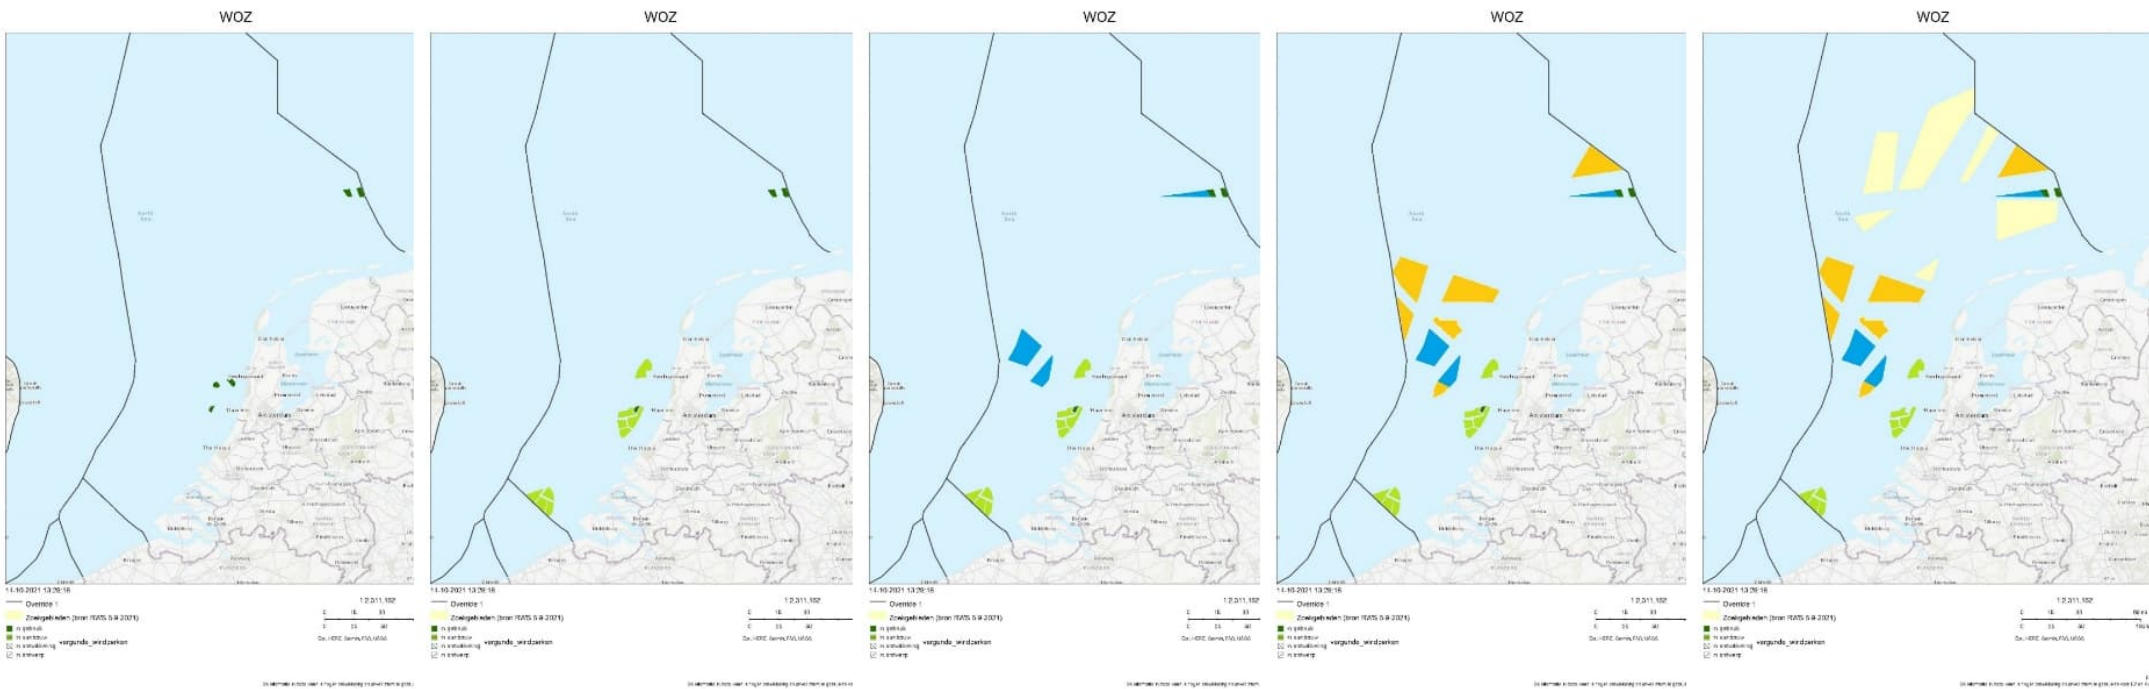

- › Spatial planning - distribution of species
- › Knowledge base for EIA and AA
- › Site decisions
- › Mitigating measures (curtainment procedure, underwater noise)
- › Assessing the impact on population (KEC)

Wozep research programme '16-'23

Wozep in a changing landscape

- Offshore wind ambition accelerates (2019 - 2023 - 2030 - 2030+ - 2040)

February 15, 2023

Wozep research programme '16–'23

Wozep in a changing landscape

- › Offshore wind ambition accelerates
- › UB MONS started, cooperation started
NWO calls, ecol. paragraph tender, ...
- › Be clear about goal, scope – and work together!
